

## 1<sup>st</sup> Annual Head & Neck Surgical Oncology Winter Summit

March 22-23, 2024

Westgate Park City Resort – Park City, Utah

### Friday, March 22, 2024

<b>Friday, March 22, 2024</b>	
<b>7 a.m.</b>	<b>Registration, Exhibits &amp; Breakfast</b> <i>Bison Rooms 3 - 5</i>
<b>7:15 a.m.</b>	<b>Welcome &amp; Course Objectives</b> ( <i>Bison Rooms 1-2</i> ) <i>Jeffrey Houlton, M.D. &amp; Terry Day, M.D.</i>
<b>7:25 a.m.</b>	<b>Oropharyngeal Cancer Surgery: Lessons Learned</b> <i>William Ryan, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Recognize the ideal surgical candidates for Transoral Robotic Surgery</li> <li>• Describe common pitfalls when performing transoral robotic surgery</li> </ul>
<b>7:40 a.m.</b>	<b>Panel Discussion: Oropharyngeal Cancer: To TORS or Not to TORS That is the Question</b> <i>Moderator: Richard Cannon, M.D.</i> <i>Panelists: Arjun Joshi, M.D., Hilary McCrary, M.D., &amp; Marianne Abouyared, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Outline who are good candidates for TORS surgery</li> <li>• Describe common contraindications to TORS surgery</li> <li>• Explain common complications of TORS surgery managed</li> </ul>
<b>8:05 a.m.</b>	<b>Intratumoral Immunotherapy for Advanced Cutaneous Malignancies</b> <i>Mirabelle Saijsevi, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Describe the mechanism of action and indications of various intratumoral immunotherapy agents</li> <li>• Outline the role of the head and neck surgeon in intra-lesion injectable therapies in managing advanced head and neck cutaneous malignancies</li> </ul>
<b>8:20 a.m.</b>	<b>Ultrasound Prior to Extracapsular Dissection for Parotid Tumors</b> <i>Arjun Joshi, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Describe how to use ultrasound to determine which benign parotid tumors are suitable for extracapsular dissection</li> <li>• Illustrate how to perform an extracapsular dissection for benign parotid gland tumors</li> </ul>
<b>8:35 a.m.</b>	<b>Panel Discussion: Challenging Cases: Salivary Surgery and Sialendoscopy</b> <i>Moderator: William Ryan, M.D.</i> <i>Panelists: Charley Coffey, M.D. &amp; Jeffrey Houlton, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Implement the most up to date strategies in the management of benign and malignant salivary tumors</li> <li>• Recognize the role of sialoendoscopy in the management of salivary conditions</li> </ul>
<b>9 a.m.</b>	<b>Adjourn Morning Session</b>
<b>2:30 p.m.</b>	<b>Afternoon Session: Exhibits &amp; Refreshments</b> <i>Bison Rooms 3-5</i>
<b>2:55 p.m.</b>	<b>Afternoon Announcements</b> ( <i>Bison Rooms 1-2</i> ) <i>Jeffrey Houlton, M.D. &amp; Terry Day, M.D.</i>

3 p.m.	<p><b>Panel Discussion: Challenging Cases: Advanced Skin Cancer</b>  Moderator: <i>Madeleine Strohl, M.D.</i>  Panelists: <i>TBD, &amp; Pryia Sivarajah, M.D.</i>  <b>Objectives:</b></p> <ul style="list-style-type: none"> <li>• List indications for neoadjuvant therapy in advanced skin cancer</li> <li>• Illustrate approaches to management of the parotid and neck in advanced skin cancer</li> <li>• Describe ethical issues in neglected and advanced skin cancer patients</li> </ul>
3:30 p.m.	<p><b>Troubleshooting Adversity: A Difficult Fibula Harvest</b>  <i>Joshua Hornig, M.D.</i>  <b>Objectives:</b></p> <ul style="list-style-type: none"> <li>• Exhibit the ideal harvest techniques when performing fibula reconstruction</li> <li>• Discuss strategies for managing abnormal fibular anatomy during fibula harvest</li> </ul>
3:45 p.m.	<p><b>Head &amp; Neck Reconstruction: Simple to Complex (Including the Use of Biologic &amp; Non-Biologic Grafts)</b>  <i>Peter Horwich, M.D.</i>  <b>Objectives:</b></p> <ul style="list-style-type: none"> <li>• Discuss the role and rationale for local and regional flaps in head and neck reconstruction</li> <li>• Outline the pertinent patient and surgery specific details that can lead to a simple or complex reconstruction</li> </ul>
4 p.m.	<p><b>Coffee Break &amp; Exhibits</b> <i>(not for CME credit)</i>  <i>Bison Rooms 3-5</i></p>
4:10 p.m.	<p><b>Panel Discussion: Worst Microvascular Reconstruction of the Year: What Might Be Done Better Next Time?</b>  Moderator: <i>John Pang, M.D.</i>  Panelists: <i>Jeffrey Houlton, M.D. &amp; Rusha Patel, M.D.</i>  <b>Objectives:</b></p> <ul style="list-style-type: none"> <li>• Outline options for pre-operative planning to optimize challenging cases</li> <li>• Review intra-operative decision making when unforeseen scenarios/anatomic variants arise</li> <li>• Describe different post-operative pharmacologic and surgical options for managing complications</li> </ul>
4:40 p.m.	<p><b>Jaw-in-a-Day Virtual Surgical Planning: How to Get Started?</b>  <i>Hilary McCrary, M.D.</i>  <b>Objectives:</b></p> <ul style="list-style-type: none"> <li>• Describe indications and contraindications for performing jaw in a day surgery</li> <li>• Demonstrate techniques for intraoperative placement dental implants and dental prostheses</li> <li>• Outline postoperative timeline and management of patients after jaw in a day surgery</li> </ul>
4:55 p.m.	<p><b>Latest Tools Managing Acute Nerve Sacrifice</b>  <i>Azeem Kaka, M.D.</i>  <b>Objectives:</b></p> <ul style="list-style-type: none"> <li>• Describe the benefit of CAR technology in acute FN repair</li> <li>• Outline the benefit of immediate V-&gt;VII transfer in acute FN sacrifice</li> <li>• Outline the optimal way to manage acute FN sacrifice</li> </ul>
5:10 p.m.	<p><b>Panel Discussion: Challenging Cases: Soft Tissue Reconstruction (Including Free &amp; Regional Reconstruction)</b>  Moderator: <i>Jonathan Giurintano, M.D.</i>  Panelists: <i>Sarah Rohde, M.D., Alana Aylward, M.D., &amp; Pryia Sivarajah, M.D.</i>  <b>Objectives:</b></p> <ul style="list-style-type: none"> <li>• Compare and contrast reconstructive options for extended laryngectomy defects</li> <li>• Describe tips and tricks regarding soft tissue inset for complex circumferential pharyngectomy defects</li> </ul>
6 p.m.	<p><b>Adjourn</b></p>

## Saturday, March 23, 2024

<b>7 a.m.</b>	<b>Registration, Exhibits &amp; Breakfast</b> <i>Bison Rooms 3-5</i>
<b>7:15 a.m.</b>	<b>Welcome</b> ( <i>Bison Rooms 1-2</i> ) <i>Jeffrey Houlton, M.D. &amp; Terry Day, M.D.</i>
<b>7:20 a.m.</b>	<b>When Do I Consider Neoadjuvant Systemic Therapy (Non-Skin)?</b> <i>J. Kenneth Byrd, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Present the current recommendations for neoadjuvant systemic therapy in head and neck cancers</li> <li>• Recognize clinical scenarios in which neoadjuvant systemic therapies may be useful</li> <li>• Outline the potential risks of neoadjuvant systemic therapy</li> </ul>
<b>7:35 a.m.</b>	<b>Lessons Learned from Running a Head and Neck Paraganglioma Clinic</b> <i>Luke Buchmann, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Order genetic testing for all patients with paragangliomas</li> <li>• Describe the role of a head and neck surgeon in managing patients at risk of developing paragangliomas</li> <li>• Facilitate a multidisciplinary approach for patients with paragangliomas/ pheochromocytomas</li> </ul>
<b>7:50 a.m.</b>	<b>Panel Discussion: Largest Cancers of the Year: How Did You Treat it?</b> <i>Moderator: Elizabeth Nicolli, M.D.</i> <i>Panelists: Luke Buchmann, M.D., Paul Tennant, M.D. &amp; Terry Day, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Describe evolving indications for neoadjuvant treatment</li> <li>• Debate varying definitions of “unresectable”</li> <li>• Outline how reconstructive options may be adjusted in extremely advanced cancers</li> </ul>
<b>8:20 a.m.</b>	<b>Management of Thyroid Cancer: Lessons Learned in My Career</b> <i>Russell Smith, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Describe the importance of preoperative imaging in the assessment of a patient with thyroid cancer</li> <li>• Understand critical intraoperative decision making during thyroid surgery for thyroid cancer</li> <li>• Development a surveillance plan for patients treated with a history or thyroid cancer</li> </ul>
<b>8:35 a.m.</b>	<b>The Role of Sentinel Node Biopsy in Oral Cavity Cancer: Is the Juice Worth the Squeeze?</b> <i>Charley Coffey, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Describe emerging evidence and current indications for sentinel lymph node biopsy in the management of oral cavity SCC</li> <li>• Outline technical considerations for the successful application of this approach</li> <li>• Identify limitations of SLNB, including appropriate management strategies for node-positive disease</li> </ul>
<b>8:50 a.m.</b>	<b>Panel Discussion: Challenging Cases: Complex Thyroid Cancer</b> <i>Moderator: Alana Aylward, M.D.</i> <i>Panelists: Pryia Sivarajah, M.D., Jonathan Giurintano, M.D. &amp; Russell Smith, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Describe extent and limits of surgery for advanced thyroid cancer</li> <li>• Outline differences in treatment in well versus poorly differentiated disease</li> <li>• Discuss potential role of external beam radiation and systemic therapies in advanced thyroid cancer</li> </ul>
<b>9:15 a.m.</b>	<b>Adjourn Morning Session</b>
<b>2:30 p.m.</b>	<b>Afternoon Session: Exhibits &amp; Refreshments</b> <i>Bison Rooms 3-5</i>

2:55 p.m.	<b>Afternoon Announcements</b> ( <i>Bison Rooms 1-2</i> ) <i>Jeffrey Houlton, M.D. &amp; Terry Day, M.D.</i>
3 p.m.	<b>Panel Discussion: Challenging Cases: Oral Cavity Cancer</b> <i>Moderator: Patrick Carpenter, M.D.</i> <i>Panelists: Andrew Larson, M.D., Elizabeth Nicolli, M.D., &amp; Terry Day, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Compare and contrast reconstructive options in challenging lip cancer case</li> <li>• Outline management options for complications and when to consider revision surgery</li> </ul>
3:30 p.m.	<b>The Role of Circulating Tumor DNA in HPV+ Oropharyngeal Cancer</b> <i>Marianne Abouyared, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Introduce how we can use ctDNA in our practice today</li> <li>• Discuss potential future uses of ctDNA in surveillance and detection of unknown primary or occult recurrences</li> <li>• Evaluate potential pitfalls with real patient case example</li> </ul>
3:45 p.m.	<b>Mandibular Osteonecrosis: The (not so) Good, the Bad, and the Ugly</b> <i>Andrew Larson, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Identify factors predisposing to mandibular necrosis</li> <li>• Name non-surgical methods for treatment of early mandibular osteonecrosis</li> <li>• Create multidisciplinary strategies for treating early osteoradionecrosis</li> </ul>
4 p.m.	<b>Coffee Break &amp; Exhibits</b> ( <i>not for CME credit</i> ) <i>Bison Rooms 3-5</i>
4:10 p.m.	<b>Panel Discussion: Monitoring Free Flaps and Other Weird Free Flap Decisions</b> <i>Moderator: John Pang, M.D.</i> <i>Panelists: Paul Tennant, M.D., &amp; Joshua Hornig, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Illustrate common techniques of post-operative flap monitoring</li> <li>• Describe monitoring of buried vs. non-buried flaps</li> <li>• Evaluate panelist and audience feedback on helpful anecdotal cases</li> </ul>
4:40 p.m.	<b>Training Like an Athlete: Surgeon Longevity and Ergonomics</b> <i>Rusha Patel, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Describe the impact surgery has on our physical function</li> <li>• Outline the techniques to reduce the physical strain of surgery</li> </ul>
4:55 p.m.	<b>Extended Uses of the Osteocutaneous Forearm Free Flap</b> <i>Sarah Rohde, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Distinguish anatomical differences in extended OCRFF</li> <li>• Outline the advantages of the OCRFF</li> <li>• Describe appropriate applications of the OCRF</li> </ul>
5:10 p.m.	<b>Panel Discussion: Challenging Cases: Osseous Reconstruction</b> <i>Moderator: Azeem Kaka, M.D.</i> <i>Panelists: Patrick Carpenter, M.D., &amp; Peter Horwich, M.D.</i> <b>Objectives:</b> <ul style="list-style-type: none"> <li>• Recognize when non-flap material can be used in complex osseous reconstruction</li> <li>• Describe optimal reconstruction for total maxillectomy defects for benign indication</li> <li>• Describe optimal reconstruction for total maxillectomy defects for malignant indication</li> </ul>
5:40 p.m.	<b>Course Adjourns</b>
6:10 p.m.	<b>Happy Hour</b> ( <i>not for CME credit</i> ) <i>Hyatt Centric Park City Lobby Bar (5 min walk)</i>

**ESTEEMED FACULTY**

**COURSE CO-CHAIRS**

**Charley Coffey, M.D.**  
Head & Neck Surgeon  
Associate Professor of Surgery  
UC San Diego Health  
San Diego, California

**Jeffrey Houlton, M.D.**  
Director, Quality & Patient Outcomes  
Sarah Cannon Cancer Institute /  
Head & Neck Specialists  
Charleston, South Carolina

**William Ryan, M.D.**  
Head & Neck Surgeon  
UCSF Health  
San Francisco, California

**Terry Day, M.D., FACS**  
National Director  
Sarah Cannon Cancer Institute /  
Head & Neck Specialists  
Charleston, South Carolina

**Rusha Patel, M.D.**  
Head & Neck Surgeon  
Oklahoma University Health  
Oklahoma City, Oklahoma

**Pryia Sivarajah, M.D.**  
Head & Neck Surgical Oncologist &  
Reconstructive Surgeon  
Richmond University Medical Center  
Staten Island, New York

**Marianne Abouyared, M.D.**  
Assistant Professor  
Head & Neck Oncology Surgeon  
University of California Davis  
Davis, California

**Luke Buchmann, M.D.**  
Head & Neck Oncology Surgeon  
University of Utah  
Salt Lake City, Utah

**Richard Cannon, M.D.**  
Assistant Professor of Otolaryngology  
Head & Neck Surgery  
University of Utah  
Salt Lake City, Utah

**Jonathan Giurintano, M.D., FACS**  
Head & Neck Oncology Surgeon  
Medstar Georgetown University Hospital  
Washington, D.C.

**Peter Horwich, M.D.**  
Sarah Cannon Cancer Institute /  
Head & Neck Specialists  
Charleston, South Carolina

**Azeem Kaka, M.D.**  
Assistant Professor, Department of Otolaryngology  
Emory University School of Medicine  
Atlanta, Georgia

**Hillary McCrary, MD, MPH**  
Assistant Professor of Otolaryngology  
Head & Neck Surgery  
University of Utah  
Salt Lake City, Utah

**Alana Aylward, M.D.**  
Head & Neck Oncology Surgeon  
Virginia Mason Franciscan Health  
Seattle, Washington

**J. Kenneth Byrd, M.D.**  
Associate Professor  
Dept of Otolaryngology-Head and Neck Surgery  
Medical College of Georgia at Augusta University  
August, Georgia

**Patrick Carpenter, M.D.**  
Head & Neck Oncology Surgeon  
Carillon Clinic  
Roanoke, Virginia

**Joshua Hornig, M.D.**  
Head & Neck Surgeon  
Sarah Cannon Cancer Institute /  
Head & Neck Specialists  
Charleston, South Carolina

**Arjun Joshi, M.D.**  
Professor of Surgery  
George Washington University School of Medicine  
Washington, D.C.

**Andrew Larson, M.D.**  
Head & Neck Surgeon  
Kaiser Permanente  
Los Angeles, California

**Elizabeth Nicolli, M.D.**  
Head & Neck Surgeon  
University of Miami Health System  
Miami, Florida

**John Pang, M.D.**  
Assistant Professor  
Ochsner LSU Health Shreveport  
Shreveport, Louisiana

**Mirabelle Saijsevi, M.D.**  
Associate Professor  
University of Vermont Medical Center  
Burlington, Vermont

**Madeleine Strohl, M.D.**  
Head and Neck Oncologic and Microvascular  
Reconstructive Surgeon  
University of Louisville Health  
Louisville, Kentucky

**Sarah Rohde, M.D.**  
Otolaryngology Surgeon-in-Chief  
Vanderbilt University Medical Center  
Nashville, Tennessee

**Russell Smith, M.D.**  
Head & Neck Surgeon  
Advent Health  
Altamonte Springs, Florida

**Paul Tennant, M.D.**  
Head & Neck Surgical Oncology  
Norton Cancer Institute  
Louisville, Kentucky
